Report of alumnae participation in the Institutional Functioning

Motivating the students

The student teachers organized teacher's day celebration on 3rd September 2022. Along with the teachers working, a few of our alumnae were also invited. Former principal Dr. D. Vijaya Bharathi who is our alumna greeted the gathering and motivated the student teachers. A few tips to become an effective communicator in the classroom transactions were given.

The students enjoyed her talk and shared their experiences with one another. Felicitating our alumnae was a joyous occasion of the institution.

In House Curriculum Planning Meet - 22/02/2023

A curriculum planning meeting is a crucial event in the educational process, where educators, administrators, and other stakeholders come together to design, review, and improve the curriculum. This meeting is essential for ensuring that the curriculum meets the educational goals and standards while addressing the needs of students. So we conduct a periodic curriculum planning in which our alumnae Sr. Sincy, who is our alumnae and the present Principal of St. Joseph's High School, Guntur, takes active part. Her practical experiences in the school helps her to contribute her valuable suggestions in the planning of the curriculum.

Mrs. Prabhavathi who is our alumna greeted the students and motivated them in curricular aspects. In particular, on the **Assessment Strategies especially** how student learning will be assessed. The formative and summative assessment methods, ensuring they align with the curriculum goals and provide meaningful feedback to students. **Resource Allocation, she enkindled to** identify the resources needed to implement the curriculum effectively, including textbooks, technology, and professional development for teachers and discussed on the budget and how these resources will be allocated.

Organization of Various activities

Welcoming and motivating newcomers in an educational institution is vital for fostering a positive learning environment and ensuring their smooth integration into the community. Whether they are students, faculty, or staff, a supportive and encouraging atmosphere can significantly impact their experience and success.

The new batch of students for the academic year 2022-2024 entered into the portals of St. Joseph's College of Education for Women, Guntur in March 2022. It is obvious that they entered with million questions in their mind as student teachers. Our senior alumna Dr. G. Aruna graced the inaugural function and encouraged the new entries driving away all their inhibitions. It was a tangible inspiration boosting up the enthusiasm of our students stating that the institution provides a good platform to innovate, enrich and enhance your skills and abilities. Madam lit the fire of enthusiasm that would keep them burning until the thirst is quenched. She has sown the seed in them which definitely bear fruit in their future.

Support to Curriculum Delivery

Effective curriculum delivery is central to achieving educational goals and ensuring that students receive a high-quality learning experience. Supporting the curriculum delivery involves providing the necessary resources, training, and infrastructure to educators, enabling them to deliver content effectively. This support ensures that the curriculum is not only taught but also absorbed and understood by students. So our teacher trainees are oriented in this regard with the knowledge of curriculum delivery by one of our former principals and our Alumnae Dr. K. Jayasree who addressed the student teachers on 19-11-2022. Being a pedagogy faculty, she talked about content mapping and formulating learning objectives in their teaching. This lecture helped our students a lot in curriculum delivery. Especially when they went for internship this orientation was a great support to them.

Student Mentoring

Student mentoring plays a key role in the educational experience, providing personalized support, guidance, and encouragement to help students navigate their academic and personal development. A strong mentoring relationship significantly enhances student's confidence, skills, and overall success in school and beyond. The Alma Mater always extends a loving invitation to its alumni to interact, inspire and share their success stories. So during the Annual Alumnae meet, held on 21.06. 2022 some of the alumnae shared their experiences and memories with the existing students. Interaction with students itself was a kind of nostalgic experience, that led the present students to have a remarkable mentoring experience from the sharing of the alumni. It was a learning platform created by the Alma Mater for the alumni and the teacher trainees.

SJCE-ALMA members Shared their experiences with the present students.

Financial Contribution of our Alumni

Alumni play a vital role in the growth and development of educational institutions, and one of the most significant ways they contribute is through financial support. The financial contribution of our alumni has a profound impact on our institution's ability to provide quality education in kind, improve infrastructure in a small scale, and support students in conducting the programs.

The joy and strength of the institution is when its alumni come back to its Alma Mater to testify the success and achievements of theirs. Our Alumnae are always ready to stretch their hands for a good cause. Our former faculty and alumnae Dr. Saroja contributed to buy Sanitary napkin Incinerator & Sanitary napkin Vending Machine – 25 Capacity on 17/12/2022.

A few of our alumni together presented cash to buy some books for the library, books to the library and a water dispenser.

Alumnae members Donated Water cooler, Incinerator, and Financial support.

Placement Advice and Support:

Placement advice and support are indispensable components of our College in career services, aimed at helping students successfully transition from academic life to professional careers. Providing effective placement support involves a combination of guidance, resources, and opportunities that empower students to make informed career decisions. The crux of education ends with the good placements of its students.

Our alumnae who are in different positions in the field of education recommend our students for their placements. Some of our Alumni who are in key positions take as well as suggest other job opportunities available. Advices are given to the students when needed. Dr. Yashoda who was Asst.prof.in ANU, Guntur, Mrs. Ramani the present principal of the B.H. school encourage our students to join their institutions through phone contact with our staff or in person. Products of SJCE are seen with the support of Alumnae in almost all the local educational institutions.
